OBJECTIVE

Recent BCA in Datacenter Architecture graduate with a strong foundation in AWS cloud computing, Linux administration, and networking. Completed coursework and EC2/VPC/IAM management, and storage configuration. Eager to leverage analytical abilities to deploy and manage cloud resources and achieve reliable, secure, and scalable cloud operations in a dynamic cloud engineering environment .

SKILLS

Datacenter & Infra:	Server Architecture, Virtualization (VMware)
Linux:	basic command line, file permissions, process and others
Cloud (AWS):	EC2 Instance Management, VPC, VPN, IAM, S3
Systems & OS:	Linux Administration (Amazon Linux), System Monitoring
Web & Database:	HTML, CSS, MySQL, GitHub,Python

INTERNSHIP

Cloud Institution | **Feb 2026 – Mar 2026**
(*Training/Internship Program*
) Bengaluru, India

- Gained hands-on exposure to AWS fundamentals, specifically managing VPC configurations and IAM user roles.
- Managed EC2 instance lifecycles and established secure connectivity using VPN and connectivity testing.

Pyspiders | (Training program) **Aug 2026 – Present**

- Completed training in SQL and gained foundational knowledge of Python, Linux, and Git.
- EC2, S3, IAM, VPC, EBS, and basic cloud computing concepts.

PROJECTS

- **Storage Logical Configuration:** Logical storage configuration involving RAID, volumes, and LUN setup.
- **Timber Treasure (E-commerce):** Responsive e-commerce website using HTML, CSS, and JavaScript.
- **Food Waste Reduction Platform:** Demo web platform for a Hackathon connecting NGOs, donors, and volunteers.

EDUCATION

SSMRV College
BCA in Datacenter Architecture | CGPA: 8.7

SSMRV PU College
CEBA | 93%

AVS Convent
SSLC | 84%

CERTIFICATIONS

- Cloud Computing with AWS – Tutedude (yet to be issued)
- Server & SAN Architecture – Abstream

STRENGTHS

- **Analytical Thinking:** Focus on problem-solving and troubleshooting.
- **Quick Learner:** Ability to rapidly grasp new technologies and enterprise workflows.
- **Attention to Detail:** Meticulous approach to system configurations and network validation.
- **Discipline:** Consistent fitness routine and professio

nal dedication.
